第九届中欧生物材料大会 9th China-Europe Symposium on Biomaterials in Regenerative Medicine (CESB 2026)

Beijing, China | May 10-13, 2026

WELCOME

Dear Colleagues, Scholars, and Friends,

We are delighted to announce that the 9th China-Europe Symposium on Biomaterials in Regenerative Medicine (CESB 2026), jointly organized by the Chinese Society for Biomaterials (CSBM) and the European Society for Biomaterials (ESB), will be held in Beijing, China, from May 10 to 13, 2026. The conference is co-hosted by the National Center for Nanoscience and Technology and Peking University.

Since its successful inception in Suzhou in 2006, CESB has grown into one of the most influential international platforms fostering deep collaboration between Chinese and European biomaterials scientists. CESB 2026 in Beijing will continue this proud tradition, featuring a comprehensive scientific program designed to expand the breadth and depth of our cooperation.

We cordially invite you to submit your latest research abstracts and join us in Beijing to share insights and shape the future of biomaterials with peers from China and Europe.
