## About CESB 2026

The China-Europe Symposium on Biomaterials in Regenerative Medicine (CESB) is the premier international platform fostering strategic collaboration between China and Europe in the field of biomaterials and regenerative medicine. Jointly established and organized by the Chinese Society for Biomaterials (CSBM) and the European Society for Biomaterials (ESB), CESB has been held biennially since 2006, alternating between China and Europe, building a lasting bridge for scientific exchange and partnership. CESB 2026 will be held in Beijing International Convention Center, Beijing, China, from May 10–13, 2026, co-hosted by the National Center for Nanoscience and Technology and Peking University. This event continues the symposium's legacy of excellence, following successful conferences in cities including Suzhou, Barcelona, Nanjing, Sorrento, Hangzhou, Porto, Guangzhou, and Nuremberg.

## Why Partner with CESB 2026?

**Influential Audience:** Connect with leading researchers, clinicians, and industry leaders from China and Europe.

**High-Impact Setting:** Showcase your innovations alongside cutting-edge research in advanced biomaterials, tissue engineering, nanotechnology, immunomodulation, and translational medicine.

**Strategic Visibility:** Position your organization at the heart of a sustained and growing Sino-European scientific collaboration.

**Proven Platform:** Join a biennial conference with a 20-year history of fostering meaningful dialogue and partnership.

CESB 2026 represents a unique opportunity to engage with a dedicated international community driving the future of biomaterials. We invite you to become a partner in this important event.
